Figure 1: Timeline of the study period. The timeline shows the dates of the first and second COVID-19 waves, the dates of the first and second lockdowns, and the dates of the first and second vaccination campaigns. The first wave is marked by a red arrow pointing to the date 12, 2023. The second wave is marked by a red arrow pointing to the date 23, 2024. The first lockdown is marked by a red arrow pointing to the date 27, 2023. The second lockdown is marked by a red arrow pointing to the date 27, 2024. The first vaccination campaign is marked by a red arrow pointing to the date 27, 2023. The second vaccination campaign is marked by a red arrow pointing to the date 27, 2024.

Figure 1: Schematic representation of the experimental design. The figure is divided into two main sections: 'Pretest' and 'Main Experiment'. The 'Pretest' section shows a sequence of stimuli: a fixation cross, a word, a word, and a word, followed by a fixation cross. The 'Main Experiment' section shows a sequence of stimuli: a fixation cross, a word, a word, a word, and a word, followed by a fixation cross. The stimuli are presented in a sequence that allows for the measurement of the effect of word frequency on the processing of the word.
